Dear Principals,

Higher Education, being a powerful tool for building a knowledge-based society of the 21st century, is of vital importance for the country. With growing size and diversity of the higher education sector particularly in terms of courses, management and geographical coverage, it has become necessary to develop a sound database on higher education.

In view of the above, I request you to identify / nominate a Nodal Officer, who will be the main person for coordinating and collection of data of college concerned, if any, for the purpose of the survey. The Nodal Officer may be from any of the departments preferably Statistics, Mathematics or Management. The following details of Nodal Officer may be sent to **Dr. E.
